

Safety, Health and Environment for Construction Site Managers

Every manager needs an understanding of their safety and health responsibilities. IOSH's globally delivered *Safety, Health and Environment for Construction Site Managers* course provides essential knowledge for anyone overseeing or managing safety, health and environmental risks in construction.

To obtain the “Black – Manager” Skillcard, we offer this course to all managers, and also “Gold – Supervisor” Skillcard. This card is available for the following managerial occupations:

- Contracts Manager
- Commissioning Manager
- Project Engineer
- Project Manager
- Quantity Surveyor
- Service and Maintenance Manager
- Building Services Design Engineer
- Building Services Engineering Site Manager

Helping business manage risks effectively, protect staff and provide a safe, healthy and hazard free workplace, building brand and reputation.

Managers cards are issued to applicants who can provide evidence of having completed an appropriate Level 4 or higher qualification in an building service engineering and/or managerial occupation.

Plus, one of the following H&S requirements:

- CITB Site Management Safety Training Scheme (SMSTS)
- CITB Managers and Professionals test
- CCNSG 'Safety Passport Scheme' course
- IOSH 'Managing Safely' course or **IOSH Safety, Health and Environment for Construction Site Managers**

All applications must be accompanied by an employer endorsement which confirms that the applicant is working in a building service engineering managerial role in accordance with the managerial criteria as specified in the online application form. **This card is valid until December 2024** when the employer endorsement scheme will come to man end. Closure of industry accreditation SKILLcards

The below guidance is designed to help you understand your next steps to replace your card.

What cards are affected by the Industry Accreditation (IA) closures?

Industry requirements state that card schemes carrying the CSCS logo can only issue cards to individuals holding nationally recognised qualifications,

MORGAN

Health & Safety Solutions
